

September 20th, 2012

To our valued customers,

Subject: Service Announcement

As of October 23rd, Armacup will introduce a number of exciting enhancements to our existing Asia-Oceania service:

Armacup will now offer twice per month direct sailings from selected ports in China, Korea and Japan whilst also introducing direct port calls at Pyeongtaek (South Korea), Port Kembla (Australia) and Suva (Fiji). Additional ports will be considered on inducement basis.

These changes will result in Armacup having equal or better transit times than our competition from/to most main ports whilst also significantly improving our transhipment operation in Australia.

Please refer to our weekly schedule for specific details. You can also contact your local Armacup representative for further information.

Regards,

Armacup

Armacup announces new bi-monthly sailings between North Asia and Oceania

Owing to customer demand, Armacup has enhanced its service to now offer two sailings per month between selected ports in North Asia and Oceania.

Armacup offers 25 years of shipping experience as a dedicated RoRo and Breakbulk carrier serving China, Korea, Japan, Australia, New Zealand, Fiji and New Caledonia.

Armacup's purpose built vessels specialise in the carriage of passenger vehicles, agricultural, construction and mining equipment as well as static breakbulk and project cargo.
